

What else

SUMMER FUN and ATVs

Young operators should always be supervised. Parents should set a good example when operating an ATV by modeling the correct safety and driving procedures.

The Canadian Paediatric Society recommends that Children under 16 years of age should not operate ATVs, as they have not yet developed the necessary strength, skill or decision-making skills to safely operate off-road vehicles.

Off-road vehicles are not meant to be used on motor vehicle surfaces—in fact, ATVs can do damage to gravel road surfaces.

Looking for Legal advice, Financial planning?

Did you know:

Community Futures has business advisors to help you connect with the legal advice and financial planning services that you are looking for. We take pride in knowing there are affordable and qualified resources available to help business owners make the correct decision.
